EDUCATION

University of California, Irvine

B.S. Business Information Management, Minor in Economics

Relevant Courses: Machine Learning, Database Systems, Data Structures, Project Mgmt

Irvine, CA

School of Computer Science

WORK EXPERIENCE

iHeartMedia

June 2026 – Present

Product Management Intern

New York, NY

- Shipped **4** features, now live on iOS and Android, that help **5M** listeners enter contests in the iHeartRadio app
- Authored the PRD and mapped the full user journey, validated it with a **12**-person study, and handed off to design
- Designed an AI agent that auto-assigns Jira blocker tickets to the right available engineer on a **30**-person iOS team

Ostudio

March 2026 – Present

Product

Remote

- Conducted **40+** customer interviews across **15** firms, translating insights into a product roadmap and requirements
- Wrote PRDs and API specs across **8** quarterly releases, translating BIM workflows into engineering requirements
- Managed product lifecycle from requirements through go-to-market across design, engineering, and operations teams

Beats by Dre

February 2026 – May 2026

Data Analytics Extern

Remote

- Analyzed campaign and behavioral data via SQL, surfacing KPIs and analytics that informed product decisions
- Aggregated cross-channel data through ETL pipelines, enabling A/B testing and metric tracking across touchpoints
- Built dashboards and journey maps surfacing **12** friction points for **5+** stakeholders, shaping audio product decisions

CHAGEE USA

April 2025 – October 2025

Product Marketing Intern

Irvine, CA

- Coordinated R&D, Consumer Insights, Product, and Marketing on GTM for **3** launches driving **10K** adoptions
- Built content dashboards tracking **6M+** impressions, optimizing campaign performance and raising conversion **22%**
- Analyzed performance data across **300+** creators to identify top content formats and inform data-driven strategy

PROJECTS & ACTIVITIES

Clair | 1st Place, HackDavis 2026

May 2026

- Led product strategy for a healthcare AI scribe via physician interviews, identifying **3** critical handoff failures
- Defined a **6**-capability roadmap across **2** design versions, shipping an LLM app validated to cut medical errors **50%**
- Won **Anthropic's** Best Use of AI among **600+** participants, raising documentation quality **70%** in a **24**-hour build

Nami | 1st Place, Best Use of Human Delta, FullyHacks 2026

April 2026

- Architected a **7**-agent AI counseling system on Claude Sonnet and Supabase Realtime for cross-agent coordination
- Owned prompt engineering and inter-agent tool-use dependencies across a full-stack multi-agent demo in **24** hours
- Engineered citation-backed responses via a knowledge-graph API, preventing hallucinations for first-gen applicants

Findy | 1st Place, Design at UCI 2026

March 2026 – June 2026

- Led a **5**-person team embedding Findy, an AI guide for seniors, inside the iOS apps they use (Walmart, Uber)
- Distrusted survey data showing **73%** of seniors rarely struggle; interviews exposed overwhelm, not skill, as the barrier
- Designed lo-fi through hi-fi Figma flows with a component library, iterating a prototype through senior usability tests

AI Safety Collective | Technical Fellow, UC Irvine

March 2026 – May 2026

- Selected as **1** of **20** Technical Fellows from **140+** applicants for a hands-on **10**-week AI alignment and safety program
- Coded a Python eval harness testing LLM refusal behavior across **300+** prompts, surfacing **3** recurring failure modes
- Prototyped a red-teaming pipeline probing prompt-injection across **250+** adversarial test cases on GPT models

SKILLS & INTERESTS

Skills: SQL, PostgreSQL, Python (Pandas, NumPy), Figma, Tableau, Jira, Git, A/B Testing, Data Analysis, Prototyping
Roadmapping, Prioritization, Metrics & OKRs, Telemetry, Competitive Analysis, User Research, PRDs, Experimentation
Cross-Functional Collaboration, Stakeholder Communication, Product Documentation, LLMs, Prompt Engineering, Agile
Interests: Radio Hosting, Concert Photography, Vibe-Coding, Squash, Pickleball, Guitar, Escape Rooms, Event Curation
